St Andrews, Florida, Nov 27th, 1923.

Northwestern Mutual Life Insurance Company,
Milwaukee, Wis.

Gentlemen:-

I hold policy No 226.544 for $3.000 dated March 16th, 1891, on which I have added $877 through applying dividends in paid up insurance as follows:

March 16th, 1893,	66.00
March 16th, 1894,	73.00
March 16th, 1895,	74.00
March 16th, 1896,	152.00
March 16th, 1897,	77.00
March 16th, 1898,	78.00
March 16th, 1899,	78.00
March 16th, 1900,	79.00
	$877.00

On this policy I have borrowed from the company $1.800, leaving $1.877 still due on the policy. I am 77 years old to morrow, and in poor health sffering from heart and stomach trouble. Time are bad with me an I thought possibly that it would be best to sell the policy to the company. What is its present cash value?

Truly yours
